Which care level is the right choice?

essentialCARE

Minimal assistance required, such as getting dressed, or bathing. Guests are able to plan and organise their own daily schedule.

comfortCARE

Suitable for guests requiring assistance with various tasks throughout the day, but able to manage simple aspects without difficulty.

intensiveCARE

For guests who need full hands-on assistance in every aspect of daily living, from waking until sleeping. No 1:1 supervision during the night.

permanentCARE

The same as intensiveCare, but with 1:1 supervision and support 24 hours a day.

Due to its great experience, our nursing department will determine the classification into the appropriate care stage.
